HOLT AT WORK ON NEW BANKING LAW

Would Have List of Unclaimed Amounts Filed at Capital for Reference.

Bank Commissioner Fred P. Holt s at work on a bill which he proposes to have introduced at the next sesing to the credit of every depositor who shall not have made a deposit therein, or withdrawn therefrom any part of his deposit, or any part of the interest thereon, for a period of more than 20 years next preceding; but this than 20 years next preceding; but this section shall not apply to the deposit made by any person known to the bank to be living. The comptroller shall communicate the statements which shall be so delivered to him to the general assembly on or before the third day of its next session. If the treasurer of any savings bank neglects or refuses to comply with the provision of this section he shall be fined \$100."

fined \$100."

The statements so submitted to the legislature, Mr. Holt points out, are referred to the banking committee and then disappear. Many inquiries are received from people throughout the state during the year asking if relatives of theirs who have died left any bank deposits. The only thing to refer to in this case is the newspaper accounts of the reports. Mr. Holt suggests that it be made the duty of the banking department of the state to keep a record of all reports of unclaimed deposits sent in by the banks and that these be sent in to the bank commissioner instead of the comptroller. A card index system of all names commissioner instead of the comptrol-ler. A card index system of all names reported will be kept, with the bank in which the deposit lies and the amount contained in it and this will be easily available for information. Once every five years, Mr. Holt's bill provides, a rdeport shall be issued in pamphlet form, giving the statistics for the preceding term, and these re-ports shall be given on request. Commissioner Holt has declared that there is another law on the books Seal, Hudson Seal, Marmot,

Persian Lamb, and in Raccoon, China Dog and Wool

Seal for the Auto.

Every lady is delighted with FURS at Christmas time, and if you should look over this array of new models and selected pelts you cannot fail to find suitable gifts for Ladies or Men.

In the preceding latin, and the provides that they are one of the plating any move for legislative action on it. This is contained in Section 2 of Chapter 197 of the Public Acts of 1911, and provides that "All corporations, partnerships or individuals engaged in the business of receiving money for safe keeping or forwarding shall report to the bank commissioners that they are engaged in such business, and shall file with the state treasurer the bond of securities provided by Section 1 of this act."

As an example of the inadequacies of this law, Mr. Holt pointed out the various express companies doing business as lowwarders of money in this state. The banking department has no jurisdiction over them, and although, under the law, the companies notify the commissioner that they are engaged in although under the law, the companies of the companies, incre is no further use for the notices, and they are put in the miscalianeous communications file. Here they are unavallable for information, and nothing more is prescribed as to watching over the business; of the companies. It is merely a waste of effort, time and space to accumulate such notices, and if Mr. Holt believes that, if it is desired that a record be kent of such insteres, a more systematic means should be provided by law.

Court Notice.

Here is a quaint Thanksgiving warning, inserted by a magistrate:
Whereas, the publik Thanksgiving happens to be on the first week of the country court's sitting, which will render it inconvienent and expensive to the Parties, and to the public, for the court to attempt to sit and do business, the first week; it is therefore thought advisable to acquaint the public, that the court propose only to meet and immediately to adjourn, to the Monday then next following, at 2 o'clock after noon. And all concerned will take notice thereof accordingly.
